SOME ACHIEVEMENTS

DEVELOPED A ONLINE SHOPING WEBSITE

I have designed and implemented an e-commerce platform featuring product display functionality for customers, seamless user registration and login capabilities, as well as intuitive product management tools for administrators. This project was developed using Java (Servlet), JSP, CSS, Bootstrap, and SQL

SCORED MORE THAN 300 POINTS ON OPEN KATTICE

I have achieved a score exceeding 300 points on Open Kattis(which is one of the renowned competitive programming platforms) and i have ranked 19th from Ethiopia and 11 from my University(Adama Science and Technology University)

SOLVED MORE THAN 520 PROBLEMS ON LEETCODE

I'm proud to share that I've dedicated myself to solving over 520 problems on LeetCode. Through consistent effort and determination, I've maintained an impressive streak of over 100 days, demonstrating my commitment to mastering problem-solving skills on this renowned platform

CREATE A PORTIFOLIO WEBSITE

I have crafted my own portfolio website from scratch, employing HTML, CSS, and JavaScript. This website showcases a myriad of components, including my hobbies, personal history, achievements, and other noteworthy details

HOBBIES HOBBIES
